The SVT Cobra Mustang Club and Track Club USA Present the: "2021 Rumble at the Roval" at the Charlotte Motor Speedway, Concord, NC.

September 24, 2021 – September 26, 2021

The SCMC/TCUSA Driving School is a safety driving program that will help you improve your driving skills while you can enjoy driving your car in the safety of a controlled environment. Your car, with an instructor, on a real enclosed road course! THIS IS NOT A RACE OR A RACING SCHOOL.

There will be a limit of 120 students for the track event and unlimited cars for the show. We will start accepting applications on January 1, 2021. Please register early to assure your spot. All applications must be received by September 25, 2021.

On the advice of our physician, we do not accept applications from participants who are or may be pregnant. Persons with a physical impairment, which may interfere with their participation, should contact Tony Sorrentino prior to registering.

SCMC/TCUSA reserves the right to refuse any application for any reason or no reason at all. Due to Covid 19, all participants will need to practice social distancing of six feet and use the proper personal protective equipment including a mask or shield

SCMC is not affiliated with Ford or any of its subsidiaries. SCMC, Inc is an independent organization that promotes the Ford Mustang. SCMC phone is 803.371.0725 and website is located at www.svtcobraclub.com

Registration fee is non-refundable.

You may find a replacement if you are unable to attend the event or take a credit for a future event.

Other Notes:

First priority is given to SCMC and TCUSA members on a first received basis. Licensed drivers only. Sorry, no drivers under age 16. All cars are required to be tech inspected by either a reputable service facility prior to the event or yourself if you are a qualified technician. It is your responsibility to ensure that your car is safe. Pre-event tech forms are provided in this confirmation packet.

One driver per car per run group.

Helmet - Snell SA15 or higher helmet is required. Snell-rated for race and/or special applications (SA) are recommended highly as we do not accept motorcycle helmets unless they are SA approved! Please bring your own helmet as the track does not supply helmets.

WE DO NOT ACCEPT MOTORCYCLE HELMETS UNLESS THEY ARE SA APPROVED

Equal restraint for driver and passenger is required. If you have a 5-point harness, provide one for your instructor. For this event, we will enforce a lead/follow format. This event requires a minimum of a three point harness/belt or stock seat belts. Long pants and long sleeve shirts are required. Natural fiber material is recommended rather than acrylic or others. If you order an event shirt, it will be a short sleeve for this event.

Wheel chocks are recommended for unloading and loading your car off of a trailer. The paddock may have a slight decline and it is recommended you use chocks to prevent rolling down the hill.

You must use a block of wood for the stand at the front of your trailer for tongue weight. The asphalt may get hot and cause the tongue stand to sink in the asphalt. This is not a request, it is mandatory.
